

Food Hygiene

Poe Says:

- The teacher is going to say 'Poe Says' followed by a task the class has to do.
- For example, when the teacher says: 'Poe Says wash your hair' all students will pretend to be washing their hair.
- Repeat this a few times. All the tasks should be related to hygiene and food hygiene.
- The teacher will then try to catch the students out by just saying 'Wash your hands'.
- If anyone does this task they are out because Poe did not say it.
- Repeat until there is a winner.
