Portion Sizes

I went to the shop and I bought:

- Start with one student who will say "I went to the shop and I bought" followed by one random item of their choice. Eg. Eggs.
- The student beside them will repeat what the previous student said while adding another item.
- Continue this around the room.
- If a child says an item in the wrong order or forgets an item, then they are "out".
- Continue around the room until there is one child left.
