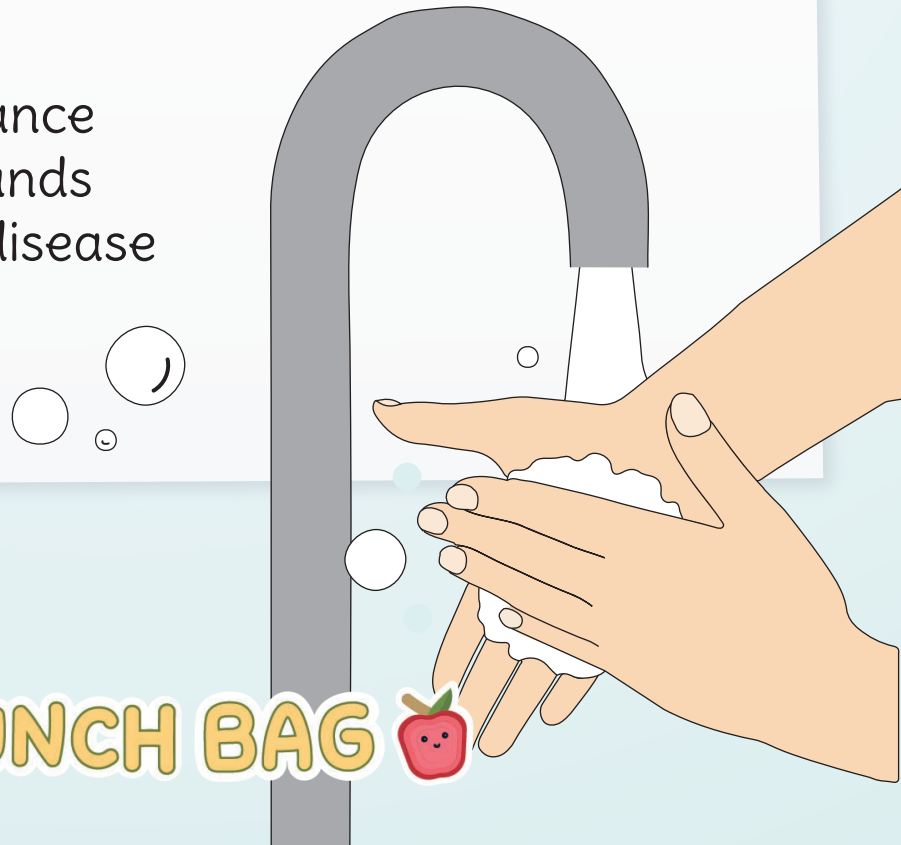
Infectious Diseases and How They Spread

Wash 'The' Hand Game:

1. Get a plastic glove. Draw on it using white board markers. Let it dry!

2. Once it's dry- put on the glove and try to wash off the marker using just water- it won't come off.

3. Try again- this time using soap and water and the marker will come off.


4. Explain the importance of washing your hands **correctly** to avoid disease transmission!!
