Factors that influence food choices

What is Poe forgetting?

- Each child gets a sheet of paper and a pen/pencil.
- Firstly the teacher will read out a list of 6 items. Eg: Mushrooms, fork, celery, spoon, apple and strawberries.
- They will then list 5 out of the 6 items and the children will write down the missing item on their page.
- If they got it right then they go onto the next round, if not then they are 'out'.
- The next round, the teacher will list 8 items and leave out 1.
- If there is a next round the teacher will list 10 items and leave out 2.
- Do this and keep adding items each round.
